Keywords					
学習目的・目標	This is part 1 of a presentations skills course that utilizes content and images from the textbook Speaking of Speech. This class takes a step-by-step approach to developing presentation skills and encourages students to find their own authentic style for presenting. Throughout each chapter, students will practice language and skills, presentation analysis, practice presenting, and learn how to give feedback to peers. Course Goals and Objectives: Successful completion of this course should improve the following: · Physical skills: posture, eye contact, gestures and pronunciation; voice inflection and intonation · Visual message skills: creating and explaining visuals · Story message skills: creating an introduction, body and conclusion of a presentation Overall goal: to become aware of the language being studied, and to gain confidence when using English inside and outside the classroom.
